2/14

Yah! I shouted. It was another day at Great Wolf. I woke up, got dressed, and went out the door with my family. On the way to the breakfast place we knocked on our Cousins door, I yelled wake up, but they don't answer. We wondered why they didn't open the door, but after a minute they opened it. We said hi and went to the breakfast place.

After that we went to the water park, we got a table, put our stuff on it, and went in the wave pool to get used to the water. Next we got in line for the water slides, and went on it. One of the water slides was called the double barrel. It was awesome, and I kept screaming. There was another one called the hydro plunge. Oh it was awesome too. I went on the water slides, went in the pool, and let the giant bucket of water spill on me.

I loved the water park but after a while we went back to our hotel rooms, changed, and went to the arcade. The games were amazing! I played so many games. turn page

After ~~I~~ played my last game I gave in my tickets and got a prize.

So I went back to my hotel room, played with my cousins, and ate pizza. My dad and uncle watched tv, and my mom and aunt talked. Once I left Great Wolf, I said in my mind I would always remember the good times I had there. the end
