

It was a cloudy dark stormy day when I started this game. This game is creative, entertaining, awesome, cool, and really fun. It's a game that you can play for five hours and you won't get tired. It's Club Penguin.

Club Penguin is an online game, where you get a penguin, pick a color for it, get an igloo, and waddle around and meet new friends. However, if you buy a membership (like me) every thing could be a whole lot better. You could buy and get almost every thing.

This game is special to me because when ever I'm board this is the game I play. It's also special, because this is also the game I play when I'm feeling low, it combs me down when I'm mad, and when I complete adventure it makes me feel proud.

But, the moment I'm most proud of is when I defeated the evil dragon. It was special to me because, I couldn't beat this dragon for years. (Just to tell you, to beat the dragon you need to throw snow balls at it, and you have snow balls with you). Finally, one day I had confidence and decided to challenge the dragon again. When I got to him, and threw as many snow balls as I could at him, and you know what I beat him. Club penguin is a very special game. You can meet new friends. Another special moment was when I became a water ninja. To become a water ninja you need to keep challenging the sensi in a battle of where you step on these stones and race the sensi to the end. If you beat him you get a part of the suit. To become a water ninja you need to get six part s of the suits. For about a year I couldn't beat the sensi in a battle. Finally one day I battled the sensi and I beat him five times. Then it was hard but I finally beat sensi and became a water ninja.

I learned that, club penguin could be frustrating, but I shouldn't give up. I realized that even though club penguin is hard, I should just relax and try again. If I look back, on club penguin, I would remember all the memories I shared with it. I will always remember club penguin, because its my favorite game I play online. I will never forget club penguin, because it's a game that you can have fun with, but also share memoires with.
